

## Admissions data from the 2016 Admissions Cycle

### **A100 Applications**

2,472 candidates applied to A100. Of those, 1,508 were rejected prior to interview and 964 were offered interviews.

We use the UKCAT and the UCAS Tariff scores of candidates in a 50/50 weighting.

*Please note, due to the withdrawal of the Decision Analysis Test (DAT) component in 2016, all scores will be lower. The following bold scores are an estimate of similar scores without the DAT component.*

*Please note, due to the introduction of the new UCAS Tariff tables, all scores will be lower. Our previous requirement of 410 tariff points is now equivalent to 144 tariff points for the same qualifications. The following bold scores are an estimate of similar scores using the new UCAS Tariff.*

Indicative scores of candidates who were successful at gaining an interview are:

Top and Bottom examples:

Low Tariff of 410 (**144**) supported by a high UKCAT of 3,020 (**2290-2310**)

High Tariff of 987 (**391**) supporting a low UKCAT of 2,350 (**1760**)

Mid-range examples:

Tariff 755 (**282**) UKCAT 2,570 (**1930**)

Tariff 630 (**242**) UKCAT 2,690 (**2020**)

Tariff 550 (**216**) UKCAT 2,740 (**2060**)

Tariff 500 (**196**) UKCAT 2,810 (**2130**)

The top and bottom Tariff scores for School Leavers that received offers for interview were 1,550 (**616**) and 410 (**144**). The top and bottom UKCAT scores for School Leavers that received offers for interview were 3,410 (**2380-2680**) and 2,350 (**1760**).

For the first time, this year Graduate candidates were ranked on a 50/50 weighting of UKCAT scores and Academic Points, which mirrors the system used for school leavers. As graduate qualifications are not included in the UCAS Tariff, we developed our own system where we assigned Academic Points for different graduate qualifications.

The top and bottom UKCAT scores for Graduates that received offers for interview this year was 3,300 (**2380-2680**) and 2,330 (**1740**) respectively.

Please note that we do not rank applicants according to GCSE results and data is not held on this.

### **A100 Interview data**

Once candidates have reached the interview stage, the scores achieved at interview were primarily used to influence potential offers being made. This year, interview scores were combined with

Please note, all statistics refer to UK/EU candidates only.

candidates SJT (Situational Judgement component of the UKCAT) scores and ranked based on the combined score. The other 3 components of the UKCAT, and candidates Tariff scores were no longer used for consideration at this stage.

Interviews are scored independently by 2 trained panel members out of a total of 50 points. Successful School Leaver candidates were offered places when their combined interview and SJT score was in excess of 41.5 points. Graduate candidates were offered places when their combined interview and SJT score was in excess of 40.5 points.

Of the candidates who were offered places based on their combined scores, the lowest successful interview score (excluding the SJT) for School Leaver candidates was 39, and 39.5 for Graduate candidates.

### **A101 Applications**

1,292 candidates applied to A101. Of these, 1,093 were rejected prior to interview and 199 were invited to attend the assessment centre.

For the first time, this year Graduate candidates were ranked on a 50/50 weighting of UKCAT scores and Academic Points, which mirrors the system used for school leavers. As graduate qualifications are not included in the UCAS Tariff, we developed our own system where we assigned Academic Points for different graduate qualifications.

The top and bottom UKCAT scores for Graduates that received offers for interview this year was 3,260 (**2380-2680**) and 2,790 (**2110**) respectively.

*Please note, due to the withdrawal of the Decision Analysis Test (DAT) component in 2016, all scores will be lower. The above bold scores are an estimate of similar scores without the DAT component.*

### **A101 Interview data**

The Graduate Entry Programme uses an assessment centre rather than an interview process in order to assess candidates. Candidates complete 2 assessments, both designed to assess different competencies desired by Barts and The London. These assessments are assessed by trained assessors, who all score independently. These scores are then processed with successful candidates receiving offers having scores in excess of 145, out of a total 164.

Once candidates have reached the interview stage only the scores achieved at interview will influence potential offers being made. UKCAT scores are no longer used for consideration at this stage.

### **A200 Applications**

593 candidates applied to A200. Of those, 304 were rejected prior to interview and 289 were offered interviews.

Please note, all statistics refer to UK/EU candidates only.

We use the UKCAT and the UCAS Tariff scores of applicants in a 50/50 weighting.

*Please note, due to the withdrawal of the Decision Analysis Test (DAT) component in 2016, all scores will be lower. The following bold scores are an estimate of similar scores without the DAT component.*

*Please note, due to the introduction of the new UCAS Tariff tables, all scores will be lower. Our previous requirement of 410 tariff points is now equivalent to 144 tariff points for the same qualifications. The following bold scores are an estimate of similar scores using the new UCAS Tariff.*

Indicative scores of students who were successful at gaining an interview are:

Top and Bottom examples:

Low Tariff of 410 (**144**) supported by a high UKCAT of 2,850 (**2160**)

High Tariff of 840 (**336**) supporting a low UKCAT of 2,350 (**1760**)

Mid-range examples:

Tariff 742 (**284**) UKCAT 2,440 (**1830**)

Tariff 630 (**242**) UKCAT 2,540 (**1910**)

Tariff 550 (**216**) UKCAT 2,640 (**1980**)

Tariff 500 (**196**) UKCAT 2,800 (**2120**)

The top and bottom Tariff scores for School Leavers that received offers for interview were 900 (**344**) and 410 (144). The top and bottom UKCAT scores for School Leavers that received offers for interview were 3,180 (**2380-2680**) and 2,340 (**1750**).

For the first time, this year Graduate candidates were ranked on a 50/50 weighting of UKCAT scores and Academic Points, which mirrors the system used for school leavers. As graduate qualifications are not included in the UCAS Tariff, we developed our own system where we assigned Academic Points for different graduate qualifications.

The top and bottom UKCAT scores for Graduates that received offers for interview this year was 3,050 (**2320-2370**) and 2,530 (**1900**) respectively.

Please note that we do not rank applicants according to GCSE results and that data is not held on this.

### **A200 Interview data**

Once candidates have reached the interview stage, the scores achieved at interview were primarily used to influence potential offers being made. This year, interview scores were combined with candidates SJT (Situational Judgement component of the UKCAT) scores and ranked based on the combined score. The other 3 components of the UKCAT, and candidates Tariff scores were no longer used for consideration at this stage.

Interviews are scored independently by 2 trained panel members out of a total of 60 points. Successful school leaver candidates were offered places when their combined interview and SJT

Please note, all statistics refer to UK/EU candidates only.

score was in excess of 51 points. Graduate candidates were offered places when their combined interview and SJT score was in excess of 51.5 points.

Of the candidates who were offered places based on their combined scores, the lowest successful interview score (excluding the SJT) for School Leaver candidates was 49.5, and 50.5 for Graduate candidates.
